4.1.3.2 reduce or extend the hours of operation of the YPN Trading System for any particular Business Day;

4.1.3.3 without prior notice to any person, pause, suspend, halt or close the YPN Trading System for trading at any time and for any period; and

4.1.3.4 take such other steps as may be necessary to ensure a fair and orderly market.

4.1.4 Despite any other provision of the Rules, YPN may:

4.1.4.1 if there has been any failure of the YPN Trading System, for any reason, or if the YPN Trading System has been paused, suspended, halted or closed, subject to the provisions of section 38(3) and section 41 of the FM Act, declare that a transaction in Securities effected through or by the YPN Trading System is void. Such declaration shall bind the Authorised User and a Client of the Authorised User on behalf of whom the relevant transaction was effected; and

4.1.4.2 declare void a transaction that was effected on the YPN Trading System on the basis that such transaction was fraudulent or there is a reasonable suspicion of fraudulent activity.

4.2 Trading times

4.2.1 Subject to Rule 4.1.3, the YPN Trading System will operate on every Business Day between 09:00 and 17:00.

4.2.2 To the extent that a Client wishes to transact in Securities outside of these times, such Client's bid or offer will not be matched and matching will only take place at the commencement of business on the next Business Day on which YPN is open for trading.

4.3 Trade cancellations

4.3.1 Despite any other provision of the Rules, YPN may, where in its opinion a trade has been erroneously matched, grant permission to or instruct the Authorised User to execute a trade cancellation.

4.3.2 If, in the opinion of YPN, a trade materially impacts the integrity or transparency of the market, or the correctness of the statistics, YPN may instruct the Authorised User to enter a trade cancellation without having received a formal request to do so from the Authorised User.

4.4 Trading halt

4.4.1 YPN may declare a trading halt in Securities in circumstances where YPN determines that the trading activity in Securities:

4.4.1.1 is being or could be undertaken by persons possessing Price Sensitive Information;

4.4.1.2 is being influenced by a manipulative or deceptive trading practice; or

4.4.1.3 may otherwise give rise to an artificial price for Securities.

4.4.2 The Authorised User may not trade Securities for the duration of the trading halt.

5. PRE-TRADE AND TRADING PROCEDURES, AND CLEARING AND SETTLEMENT

5.1 Application

This part of the Rules is applicable to the clearing of transactions in Securities listed on YPN and the electronic settlement of such transactions through Strate. This section is binding on the Authorised User and its Clients.

5.2 Pre-trade arrangements / procedures

5.2.1 Client verification

5.2.1.1 All the Authorised User's Clients must be pre-verified before they are permitted to transact in Securities.

5.2.1.2 Pre-verification of Clients is achieved by means of two separate verification exercises undertaken by the Authorised User, namely:

5.2.1.2.1 BEE verification; and

5.2.1.2.2 FICA verification.

5.2.2 BEE verification

5.2.2.1 BEE verification refers to the activities conducted by the BEE Issuer Verification Agent aimed at:

5.2.2.1.1 ensuring that the prevailing BEE Terms and Conditions of the Issuers' respective BEE Ownership Schemes have been accepted by the Client; and

5.2.2.1.2 verifying that the Client qualifies as a BEE Compliant Person as set out in the relevant BEE Ownership Scheme and providing confirmation of that verification to the Authorised User.

5.2.3 FICA verification

FICA verification refers to the steps that the Authorised User must take in terms of FICA to establish and verify the identity of its Client.

5.3 **Maintenance of the securities registers**

5.3.1 Strate is ultimately responsible for maintaining the registers relating to Securities.

5.3.2 YPN and the CSD will, however, reconcile their shareholder records on a daily basis.

5.4 **Pre-funded model**

5.4.1 YPN operates on a strict pre-funded principal.

5.4.2 This means that no:

5.4.2.1 bid to buy in respect of Securities can be placed on YPN through the Authorised User unless the buyer has made the requisite amount of cash available in the respective Exchange Trust Account; and

5.4.2.2 offer to sell, in respect of Securities, can be placed on YPN through the Authorised User unless the prospective seller has the requisite amount of Securities available. The availability of such Securities will be determined with reference to the shareholder records under the control of YPN.

5.4.3 Funds transferred into the Exchange Trust Accounts by a Client will be allocated to the relevant Client's trading account in Equity Express on the Business Day following the day on which the amount reflects in the Exchange Trust Account pertaining to the particular Issuer whose Securities the relevant Client wishes to buy.

5.4.4 The Authorised User will operate and manage the pre-funded model described above on behalf of YPN.

5.4.5 YPN will, however, supervise, maintain and oversee this function and be ultimately responsible for the process.

5.4.6 The Authorised User shall make payments out of the Exchange Trust Accounts on behalf of YPN.

5.5 Allocation of Clients' funds

5.5.1 Auto-allocation

5.5.1.1 The bank statements pertaining to each of the Exchange Trust Accounts will be downloaded, automatically, on a daily basis into Equity Express. The Authorised User must ensure that the correct amount of funds is allocated to the correct Client's trading account.

5.5.1.2 To facilitate this allocation process, all Clients must record their unique investor/Client number in the beneficiary reference details section / field prior to transferring any funds into an Exchange Trust Account.

5.5.1.3 Payments other than electronic funds transfers or cash will not be permitted.

5.5.1.4 No interest will accrue to the Clients in respect of funds standing to the credit of their trading accounts.

5.5.1.5 Interest accruing on funds held in the respective Exchange Trust Accounts will be used by YPN to offset bank charges incurred by it in respect of the maintenance of such accounts.

5.5.1.6 Funds will only be allocated to trading accounts belonging to Clients that have been BEE verified and FICA verified.

5.5.1.7 If a Client who has not been BEE verified or FICA verified transfers funds into any of the Exchange Trust Accounts, such funds will remain unallocated until the relevant Client has been BEE Verified and FICA verified, at which point the relevant funds will be allocated automatically to the relevant Client's trading account.

5.5.2 Manual allocation

5.5.2.1 In the event that a particular transfer into any of the Exchange Trust Accounts cannot, for any reason, be allocated to a particular Client, a senior manager of the Authorised User, on behalf of YPN, will attempt to allocate the relevant funds, manually.

- 5.5.2.2 Funds that cannot be allocated, automatically or manually, will remain unallocated until such time that a Client alerts the Authorised User to the fact that their funds are not reflected on the balance standing to his or her trading account.
- 5.5.2.3 Upon receiving an alert from a Client, as described in section 5.5.2.2 above, the Authorised User must request the investor/Client number from the Client, as well as any further information that it may need to verify the verification status and identity of the Client.
- 5.5.2.4 If the Authorised User is satisfied that the information received from the Client, as set out in section 5.5.2.3 above, would enable an allocation of funds, the senior manager of the Authorised User must manually allocate the relevant funds as per the procedure set out in section 5.5.2.1 above.
- 5.5.2.5 All manually allocated deposits will remain in a pending status until they have been authorised by a senior manager of the Authorised User.
- 5.5.2.6 If the allocation is rejected then the relevant funds will return to an unallocated status.
- 5.5.2.7 The senior management of the Authorised User will not be able to transfer funds from one trading account to another unless an incorrect allocation has been made which needs to be corrected.
- 5.5.2.8 The Authorised User will be responsible for preventing any transfer of funds from one Client's trading account to another Client's trading account which results in either trading account balance becoming negative.
- 5.5.2.9 If such a transfer is required to be made, the senior manager of the Authorised User that authorises the relevant transfer will contact both Clients, informing them of the transfer details.

5.5.3 **Confirmation sent to Clients**

5.5.3.1 An SMS and/or email will be sent to the Client each time funds are allocated to his or her trading account either via the manual or automated allocation process.

5.5.3.2 No communication, in respect of the allocations process, will be sent to the Client where neither a cell phone number nor an email address exists. A record of all SMSs and emails sent will be kept per Client.

5.5.4 **The 7-day rule**

5.5.4.1 Any cash balance standing to the credit of a Client's trading account that is not under the control of a discretionary financial services provider (less any open buy bids), will automatically be refunded into the Client's own bank account if any of the following conditions are satisfied:

5.5.4.1.1 there has been no cash activity on the trading account for 7 days; or

5.5.4.1.2 there has been no trade request submitted by the investor for 7 days; or

5.5.4.1.3 there has been no trade request cancelled by the investor for 7 days.

5.6 **Clearing arrangements / procedures**

5.6.1 Clients will be able to specify to the Authorised User the specific number of Securities that they wish to buy. If a Client has not specified how many shares he or she wishes to buy, the Client's order will be processed with reference to the funds standing to the credit of the relevant Client's trading account and the price of the Securities at that moment in time.

5.6.2 A bid to buy will result in a pending cash trade that will reduce the Client's available cash balance in his or her trading account. If the bid expires or is cancelled then the pending cash transaction will be removed and the cash will automatically transferred back to the Client's trading account (i.e. the amount of the bid will no longer be pending in the Client's trading account).

- 5.6.3 Clients may not change a bid to buy or an offer to sell once it has been placed on the YPN Trading System. A Client may only cancel the trade request and thereafter make a new bid to buy or offer to sell.
- 5.6.4 If a trade is cancelled outside of YPN's trading times, this cancellation will only be effective at the commencement of the next Business Day.
- 5.6.5 The YPN Trading System matches a bid to buy and an offer to sell using the principle of Price/Time Priority. This process entails the following:
- 5.6.5.1 When a bid to buy or an offer to sell is entered into the matching engine, it is assigned a timestamp. Equity Express will use this timestamp to prioritise trade requests at the same price in the matching engine;
- 5.6.5.2 The trade request (i.e. bid to buy or an offer to sell) entered earliest at the same price limit will be executed first;
- 5.6.5.3 When a subsequent trade request is entered, the matching engine will first check the price limits of all trade requests contained in the matching engine. If the subsequent trade request is immediately executable, in other words it can be matched against an existing trade request(s), then one or more than one partial transaction will be generated;
- 5.6.5.4 To be immediately executable, the trade request must have the following attributes:
- 5.6.5.4.1 a bid to buy at a price at or above the lowest offer to sell in the matching engine; and
- 5.6.5.4.2 an offer to sell at a price at or below the highest bid in the matching engine.
- 5.6.5.5 Trade requests will not necessarily be executed at a single price, but may generate several partial transactions at different prices. When a large trade request executes against the total available quantity at a given price level, the next best price level will become "best". This process will continue as long as incoming trade requests remain

executable. If not executed upon entry, a trade request will be held in the matching engine until it can match with an opposite trade request with the above attributes.

- 5.6.6 When an order is matched, Equity Express will reserve the amount of funds required in respect of the order by reducing the available funds in the relevant Client's trading account. Similarly, the Securities required to be transferred to the buyer will be reserved meaning that the Client can no longer load an offer to sell against his reserved sold Securities.
- 5.6.7 Once a trade has been matched, then both the buyer and the seller will be informed via SMS and/or email.
- 5.6.8 No Client can be both the buyer and seller to the same transaction.

5.7 **Block Trades**

- 5.7.1 Block trades are manually match trades and do not make use of the matching function of the YPN Trading System, although these transactions are recorded on the YPN Trading System.
- 5.7.2 Only transactions that have a value greater than R1 000 000 (one million Rand) may be manually matched as a block trade.
- 5.7.3 Block trades may occur in two ways:
- 5.7.3.1 the buyer and seller may negotiate directly and independently between themselves and agree on the number and the price of Securities; or
- 5.7.3.2 the buyer and/or seller may approach the Authorised User independently or jointly and request that the Authorised User assists in the matching of a block trade.
- 5.7.4 Once the buyer and seller of the Securities have agreed on the number and the price of the Securities and this agreement has been communicated to the Authorised User, the Authorised User manually matches this bid to buy and offer to sell.

5.7.5 Once the block trade has been manually matched on the YPN Trading System, this block trade will be reported to the market and the transaction will be settled in terms of 5.8.

5.8 **Contract notes**

5.8.1 In respect of a transaction in Securities executed through the YPN Trading System, the Authorised User must transmit to the relevant Clients via SMS and/or email, a contract note.

5.8.2 The contract note referred to above must disclose:

5.8.2.1 the date and time of the transaction;

5.8.2.2 the identification number of the transaction;

5.8.2.3 the amount and nature of the charges in connection with the transaction;

5.8.2.4 the price at which the transaction was executed and the total consideration paid from or to the Client; and

5.8.2.5 the settlement date of the transaction.

5.9 **Settlement arrangements / procedures**

5.9.1 **General rules for settlement**

5.9.1.1 Settlement of transactions on Equity Express involves the transfer (by book entry) of a Security from one party to another in the relevant uncertificated securities register and the corresponding transfer of funds between contracting parties.

5.9.1.2 YPN has appointed Strate to hold the dematerialised register of Securities. The official register of Strate will be reconciled daily to the copy of the securities register maintained by YPN.

5.9.1.3 YPN will send a record of the trade to Strate. At the same time, the Authorised User will also send details of trades to the CSDP.

- 5.9.1.4 Strate will ensure that it receives a commitment from the CSDP that a seller of Securities holds/owns the Securities in question. As the YPN Exchange is a free of payment environment, the CSDP is not required to commit that the buyer of the Securities in question has the cash available since the cash backing the buy order is held in the Exchange Trust Account.
- 5.9.1.5 Strate will then affect the transfer of the relevant Securities from the seller to the buyer in the official share register and issue confirmation of trade to YPN. YPN will record the transaction in its records after confirmation of the transfer from Strate.
- 5.9.1.6 Equity Express reflects the transfer of the script from the seller to buyer in the seller's trading account and pays the proceeds of the sale to the seller from the buyer's pre-funded trading account.
- 5.9.1.7 Settlement is secure and considered to be both final and irrevocable after confirmation has been received from Strate.

5.9.2 **Payment of proceeds**

- 5.9.2.1 Payment of proceeds to the Client's bank account or the withdrawal of cash from the Client's trading account to their bank account can take place by way of two mechanisms:
- 5.9.2.1.1 Instruction on sale of Securities: In terms of this mechanism, the Client is required to indicate to the Authorised User whether or not he or she:
- 5.9.2.1.1.1 wishes for the proceeds of a sale to remain in his or her trading account;
- 5.9.2.1.1.2 would prefer part of the proceeds to be transferred to his or her bank account; or
- 5.9.2.1.1.3 would prefer all the proceeds to be transferred to his or her bank account.

- 5.9.2.1.2 Ad hoc Instructions to withdraw part of or all of the cash balance. These instructions are provided against the actual cash balance in the relevant Client trading account.
- 5.9.2.2 Payment instructions may be made by Clients telephonically via the trading helpdesk or via the website.
- 5.9.2.3 Payments that need to be made to Clients will be batched every evening to effect payment to the various Clients' bank accounts.
- 5.9.2.4 From the date of sale, Clients should expect their proceeds to reflect in their bank account within five Business Days after the receipt of the Client's instruction.
- 5.9.3 **Failed payments**
- 5.9.3.1 Payments to Clients may fail due to bank accounts being closed or bank details being invalid.
- 5.9.3.2 When this happens, the Authorised User will be notified of any failed payments from the previous day's payment batch before 10:00 every morning. By 14:00 every afternoon the Authorised User will process the failed payments and the relevant Client's bank account details will automatically be marked as invalid with YPN.
- 5.9.3.3 The Authorised User will generate a payment instruction to return the proceeds of the failed payments back to the relevant Client's bank account.
- 5.9.3.4 This payment into the Client's bank account will reflect on the following day's trading bank account statement.
- 5.9.3.5 The payment reference will contain the letters "FP" which is to be used to indicate a failed payment, and the funds will be automatically allocated back to the relevant Client's trading account.
- 5.9.3.6 A finance administrator of the Authorised User will contact the relevant Client to advise him or her of the failed payment and to obtain correct bank details from them.

- 5.9.3.7 No subsequent payments to the Client will be attempted until his or her updated banking details have been received and verified.
- 5.9.3.8 Once the Client's bank details have been updated and verified the Client will be notified accordingly by SMS and or email. He or she will then be permitted to withdraw the cash from his or her trading account.
- 5.9.3.9 Payment reconciliations will be attended to on a daily basis by a member of the Authorised User's finance team.
- 5.9.3.10 The Authorised User shall provide YPN with a report of all failed payments every month.
- 5.9.4 **Payment of dividends**
- 5.9.5 When the Issuer declares a dividend the Issuer must first inform YPN of the details of the dividend. YPN will inform the Authorised User of the details of the dividend.
- 5.9.6 The Authorised User will communicate the details of the dividend on behalf of the Issuer to all investors of dematerialised securities and the transfer secretary will communicate the details of the dividend to all investors of immobilised securities. These details will include the dividend declaration date, the last date to trade ("**LDT**"), the SARS payment due date, the investor payment date and the dividend per security.
- 5.9.7 The dividend details will be captured in Equity Express by YPN for planning purposes. On the LDT YPN will generate a schedule of investors that qualify for the dividend and their corresponding dividend payment amounts. YPN will then instruct the Issuer to transfer the total dividend amount into the Dividend Bank Account.
- 5.9.8 When the total dividend amount has been deposited into the Dividend Bank Account, YPN will link the deposit to the dividend and the funds will be apportioned to all the relevant investors based on their holding on the LDT.

- 5.9.9 YPN will ensure that the total of the individual dividend amounts due to each Client reconciles precisely to the total dividend amount deposited into the Dividend Bank Account by the Issuer.

6. MARKET CONDUCT

6.1 Prevention and detection of market abuse

- 6.1.1 The Authorised User must give consideration to the circumstances of orders placed by Clients before entering such orders in the YPN Trading System and must take reasonable steps to satisfy itself that such orders and any resultant trades will not result in a breach of the provisions of section 80 of the FM Act (Prohibited trading practices).
- 6.1.2 The Authorised User must ensure that all of its employees who are involved in the receipt of orders from Clients and the execution of transactions in Securities on the YPN Trading System are familiar with the market abuse provisions in sections 77 to 80 of the FM Act and that those employees receive adequate training and guidance to enable them to recognise and avoid entering into any transaction on behalf of its Clients which will result in, or is likely to result in, a breach of those provisions.
- 6.1.3 The Authorised User's monitoring procedures must specifically include procedures to monitor orders entered into, and transactions executed on, the YPN Trading System by the Authorised User and its employees, with the objective of identifying and taking appropriate action in relation to orders or trades that, in the reasonable opinion of the Authorised User may constitute a breach of the provisions of sections 78 and 80 of the Act.
- 6.1.4 In formulating and implementing the compliance monitoring procedures referred to in Rule 6.1.3, the Authorised User is not expected to monitor every order entered into, and every trade executed on, the YPN Trading System by the Authorised User, for the purpose of identifying potential market abuse. Nevertheless, whilst the Authorised User is encouraged to implement monitoring procedures to detect any activity undertaken by the Authorised User's employees or its Clients which may constitute a breach of the provisions of sections 78 and 80 of the FM Act, the procedures should, as a minimum, aim to detect activity which, to a reasonable person

observing or reviewing such activity, would constitute a blatant breach of the provisions of sections 78 and 80 of the FM Act taking into account all relevant factors such as:

- 6.1.4.1 the identity of the parties to the transaction;
- 6.1.4.2 the perceived intention of the parties to the transaction;
- 6.1.4.3 the frequency and pattern of transactions over a period of time;
- 6.1.4.4 the effect of the transaction on market prices or volumes;
- 6.1.4.5 the size and timing of the transaction; or
- 6.1.4.6 a combination of two or more of these factors.

 - 6.2.3.1.5 need not be duplicated or repeated to the same Client unless material or significant changes affecting that Client occur, or the relevant service renders it necessary, in which case a

disclosure of the changes must be made to the Client without delay.

- 6.2.3.2 The Authorised User:
- 6.2.3.2.1 must disclose full and accurate information about the fees and any other charges that may be levied on Clients;
- 6.2.3.2.2 may not disclose any confidential information acquired or obtained from a Client about such Client, unless the written consent of the Client has been obtained beforehand or disclosure of the information is required to further the objects of the FM Act or is required under any law;
- 6.2.3.2.3 must advise a Client in advance of any restrictions or limitations that may affect the access of that Client to their assets.

6.3.4 Authorised Users need not hold the records in Rule 6.3.2 themselves but must be capable of making such records available for inspection within seven days.

6.3.5 All instructions given by Clients to execute transactions must be kept for a period of at least six months after the relevant transactions and all other Client records in Rule 6.3.2 must be kept for at least seven years after the rendering of the services concerned.

6.4 **Contact with the Authorised User**

The Authorised User must provide for the necessary resources and functionality to ensure that Clients are able to readily contact it.

6.5 **Co-operation with regulators**

The Authorised User shall deal with YPN as its regulator in an open and co-operative manner and keep YPN promptly informed of anything concerning YPN which might reasonably be expected by YPN to be disclosed to it. The Authorised User shall also provide reasonable co-operation to any other regulatory body or any law enforcement agency in respect of any matters which are the subject of an investigation by such body or agency relating to an alleged contravention of the FM Act or any other law governing the activities of the Authorised User.

6.8 **Client acceptance and maintenance procedures**

6.8.1 The Authorised User shall ensure that it obtains and maintains sufficient information on each Client account and each account operated by a Client so as to be able to identify:
